

Photos by Dawn Crites and Brittney Evans

More than 100 years ago, a little brown dog named Dumpy came to live in the Boykin community. Dumpy was an excellent hunting companion and his size allowed him to get in and out of small boats without "rocking the boat." The Boykins and their friends began a breeding program to pass along Dumpy's size and exceptional swimming and retrieving ability. His descendents are South Carolina's State Dog - the Boykin Spaniel. Join them for a tour of downtown Camden!

2. Look at me hanging out with the Father of Camden and Camden's Patron Saint. Hmmm - what's that down there?. It looks like a really small brown puppy.....

6. I like to hang out at this old courthouse. It's got a great yard, tall trees, and is so nice and cool under the arches.

10. ARF ARF - I'm Ever. There are so many places in Camden to roll on the green grass and enjoy church bells tolling. Our spot has a famous monument designed by Robert Mills to honor Baron Johann de Kalb, hero of the Battle of Camden.

3. What's over there? Some lovely butterflies to play with and hmmm ... I smell FOOD .

A chance to eat and play, what more can a doggie ask for?

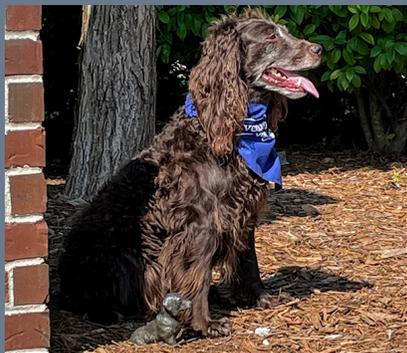

7. WOOF WOOF - I found the best maple tree in town. It's right outside a great cultural center and the front yard is AMAZING.

11. We're the dynamic duo and always up for law and order - Camden style!

We're hanging out by the Marquis de Lafayette's cedar tree in front of this building of justice.

Bring biscuits.

4. Hi there! Rumor has it that I have the best view of the Clock Tower from this pocket park.

8. Two for one! We have a flag pole AND Fireup is right around the corner.

I wonder if they'll let two little brown dogs ride in one of the big red trucks.

12. Peek a boo and here I am! Call me Branch. You can hear all about me and my family tree inside. It's nice and cool and there's lots to see.

5. Sorry - can't stop to talk. Must.... chase.... tennis....balls....

9. Hi! I'm Rumor and I'm thirsty! Lucky for me that Camden has a 100 year old water fountain in this park. I'm patiently waiting for you to come find me!

The *Boykin Spaniel Invasion!* trail markers were created by Mary Deas Boykin Wortley and are used with the permission of the artist and the Boykin Spaniel Society. Wortley is the great great granddaughter of the breed's founder, Whit Boykin.
